PASSION IN THE MAKING

Founded in 1948 in Guastalla, Emilia Romagna, SMEG makes beautiful domestic appliances with a passion for creativity, technology and gastronomy that remains undimmed after more than 70 years. Every SMEG product, large and small, embodies 'Made in Italy' excellence and an unmistakably Italian flair for stunning design.

TIMELESS AESTHETICS

The rounded, retro lines and nostalgic colour palette of SMEG appliances reference and reimagine the much-loved mid-century era of design. From the iconic FAB28 fridge to the smallest domestic appliance, every product in the ever-expanding SMEG range is loaded with aesthetic appeal and functionality.

#FAB5BUDDY

✓ Do store...

With a temperature range of between 8 and 14 degrees Celsius, the handy little FAB5 bar fridge is ideal for storing drinks, covered sandwiches and canapes just before serving, and the following entertaining essentials...

WINE AND CHAMPAGNE

The FAB5 is ideal for storing wine and champagne, which is optimally stored at 12 to 14 degrees Celsius. You can keep your FAB5 permanently stocked, or relocate a crisp white, a soft sparkling red and a bottle of bubbly from your dedicated wine fridge just before the guests arrive, ready to uncork and pour. Cheers!

DRINKS

Man and woman cannot live on wine and bubbly alone and besides, there are thirsty children to hydrate, too. The FAB5 is just the thing for chilling and storing non-alcoholic drinks. Stock it full of iced tea, juice, soda, mineral water – and never run out of cold drinks again!

CHEESE

A FAB5 is great for storing not only wine but also cheese – perfect companions. Do remove your wedges and wheels a half an hour or so before serving to bring them to room temperature for optimum enjoyment.

CHOCOLATE

Fun fact: Eating dark chocolate releases chemicals associated with the UKphoria of falling in love. (No wonder everybody loves it.) Another fun fact: FAB5 is perfect for storing chocolate with no risk of condensation or transfer of odours.

SNACKS

Never suffer soft, soggy snacks again. Pop a FAB5 in your living area and pack it full of biscuits, crackers, crisps and nuts.

✗ Don't store...

FRESH MEAT* (It should be stored between 1 to 3 degrees Celsius for immediate consumption.)

FRESH SEAFOOD* (It should be stored between 1 to 2 degrees Celsius for immediate consumption)

DAIRY* (It should be stored between 2 to 4 degrees Celsius.)

FRESH PRODUCE* (It should be stored between 2 to 4 degrees Celsius.)

*Perishables should not be stored in the FAB5 bar fridge
