

WDF9614

EAN Code	8017709257323
Product Family	Washer dryer
Commercial width	60 cm
Commercial depth	Standard capacity
Installation	Free-standing
Load type	Frontal

Technical Features

Type of motor	Standard	Door opening	135°
Electronic control functioning	Yes	Automatic variable load	Yes
Programme selection knob	Yes	Antifoam system	Yes
Spin speed selection on display/LED	No spin/ 400/ 600/ 800/ 1000/ 1200/ 1400	Load balancing system	Automatic
Display/led for temperature regulation	Yes	Easy to access filter	Yes
Polypropilene tank	Yes	Child lock (functions block)	Control block
Basket	Stainless steel	Anti-flood system	Yes
Drum capacity	61 l	Water supply	Single, cold
Door diameter	33 cm		

Performance / Energy Label

A

Washing loading capacity	9 kg	Energy consumption (washing + drying)	6.12 KWh
Drying loading capacity	6 kg	Water consumption (washing) per cycle	49 l
Max spin speed	1400 giri/min	Water consumption (washing+drying) per cycle	127 l
Energy efficiency class	A	Duration of the normative programme	675 min
Washing efficiency class	A	Energy annual consumption (washing)	210 KWh
Energy rating	AA	Energy annual consumption (washing+drying)	1224 KWh
Noise level washing	58 dB(A) re 1pW		
Noise level spinning	77 dB(A) re 1pW		
Noise level drying	64 dB(A) re 1pW		
Energy consumption - Cotton 60° - Wash only	1.05 KWh		

Water annual consumption (washing)	9800 l
Water annual consumption (washing+drying)	25400 l
Residual humidity percentage (%)	3 %

Symbols glossary (TT)

	Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.		Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.
	LCD display: to optimize performance and simplify the use of the appliance.		33 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.
	Gentle drying: program designed to get laundry ready for easy ironing.		A: Product drying performance, measured from A+++ to D / G depending on the product family
	This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.		No spin option: this option allows to exclude the last spin phase, draining the water from the tank
	Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.		Cotton: For soiled fabrics in cotton
	Cotton Eco 20°: For soiled fabrics in cotton		Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
	Extra Rinse: Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems.		Super fast 12 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
	Duvet: gentle cycle specific for duvet.		Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.

Spin speed control: On the control panel there is a spin speed control knob. In some models, the maximum spin speed is 1400 rpm / min. You can also to exclude spin.

Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.
